

**Project Design**  
**Phase-I**  
**Solution Architecture**

Date	16 <sup>th</sup> October 2022
Project Name	Web Phishing Detection
Maximum Marks	4 Marks

**Solution Architecture:**

Solution architecture is a complex process with many sub-processes that bridges the gap between business problems and technology solutions.

Its goals are to:

- Find the best solution to solve existing problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.

Provide specifications according to which the solution is defined, managed, and delivered.
